Market Abuse Regulation
**Main changes**

- **Significant changes**
  - Significant changes to the European laws on market abuse are due to come into effect on July 2016. On implementation, the new measures will replace the four current European directives on market abuse.

- **Pan-European criminal regime**
  - A new European Market Abuse Directive (MAD 2) introduces a pan-European criminal regime for «serious cases» of market abuse.

- **Market soundings**
  - MAR creates a new regime relating to the taking of market soundings. This will be highly relevant to issuers and their advisers as well as buy-side firms which are sounded out.

- **Market abuse**
  - The new Market Abuse Regulation (MAR) covers other cases of market abuse. Legislative measures extend to:
    - A wider range of markets and types of issuer than under the current European law, including SME markets and issuers;
    - Cross-manipulation of spot commodities markets;
    - Certain high frequency/algorithmic trading strategies;
    - Benchmark manipulation.
Scope of application

Scope of the legislation
The legislation also covers all areas currently covered by the existing market abuse directives, including:

- Insider dealing;
- Improper disclosure of inside information;
- Market manipulation;
- Stabilisation of share buy backs;
- Timely disclosure of inside information;
- Insider lists;
- Transactions by Persons Discharging Managerial Responsibilities;
- Analysts’ independence/conflicts of interests;
- Suspicious transaction reporting and off-market trades.

Important questions

1. Are we talking about a derivative?
   - Generally each financial contract whose value is being derived from one or multiple underlyings and is not a cash transaction is a derivative if no exceptions are applicable.

2. What is the legal nature of the counterparty?
   - Is the counterparty a FC or an NFC?
   - Is the counterparty small?

3. Which obligations are applicable?
   - Is there a clearing or reporting obligation?
   - Are there risk mitigation measures?
   - Is there a trading obligation?

4. Who must fulfil the obligation?
   - Who must report to the Trade Repository?

### Some remarks

<tr>
<th>Topic</th>

<th>Commentary</th>
<th>Commentary</th>
</tr>
</thead>
<tbody>
<tr>
<td>Extraterritoriality</td>
<td>The FMIA and its ordinances do only set forth a very limited extraterritorial effect. The FMIA does only stipulate a clearing obligation and an obligation to trade on a trading venue which will be further diluted in the FinfraV.</td>
<td>The limited extraterritorial impact as well as the possibility to fulfill the obligations under the FMIA under foreign law are welcome.</td>
<td></td>
</tr>
<tr>
<td>Documentation obligation</td>
<td>FC and NFC must establish in writing the procedures/processes implementing the clearing obligation, reporting obligation, risk mitigation measures, and trading venue obligation. Non-financial counterparties can decide in writing not to trade in derivatives.</td>
<td>These procedures/processes must already be established beginning as of January 1, 2016. There are in other words no transition periods set forth in the current draft of the FinfraV for these obligations.</td>
<td></td>
</tr>
<tr>
<td>Party self-declaration</td>
<td>A counterparty might in principle rely on the self-declaration of the counterparty about its nature. Such a self-declaration is applicable to all obligations under the chapter related to the OTC-derivatives. Parties must be informed about amendments on time.</td>
<td>The reliance on self-declarations issued by counterparties, especially also regarding the legal nature of foreign domiciled counterparties, are welcomed.</td>
<td></td>
</tr>
<tr>
<td>No Frontloading</td>
<td>The obligation to clear derivatives through licensed or recognized central counterparties starts 6 to 12 months after the point in time when FINMA determines the mandatory application of the clearing obligation related to specific derivative categories. Only derivatives transactions entered into after the start of the clearing obligation are subject to the clearing obligation.</td>
<td>The fact that no front loading is required is welcomed from a practical point of view.</td>
<td></td>
