

CareerFairy

Connecting Talents with Employees at Work, Anytime,
Anywhere.

CareerFairy Secures Financing of CHF 425k and Strengthens Its Board of Directors

Zug, Switzerland, September 21, 2020 – CareerFairy AG, a Swiss technology company, today announced the issuance of a convertible loan over CHF 425,000. The loan was subscribed by some members of the StartAngels Network, Zurich and other Swiss business angels. Peter Pfister, former CFO of Adecco and Business Angel of the Year 2009, Urs Ernst, former CFO of Bank Vontobel and Fabio Magagna, serial entrepreneur and product manager at Google Switzerland have joined the board of directors.

CareerFairy was founded by Thomas Schulz and Maximilian Voss, graduates of the Swiss Federal Institute of Technology in Zurich (ETH) in July 2019. Through its interactive live streaming platform, CareerFairy connects companies with students through university career services. Over hundred employers across the DACH region are already actively leveraging the CareerFairy platform to remotely engage with top talents at some of the world's leading universities.

The funds will be used to further expand the business mainly in Europe and the USA and to further augment the live streaming experience through new interactive features.

“We are pleased to have hired new talents to assist with our growth strategy,” said Thomas Schulz, CEO of CareerFairy. “The experience and know-how of the new board members will be extremely valuable in achieving our vision of becoming the number one digital platform for companies and students to connect – anytime, anywhere.”
