# Overview & History of SECA Publications

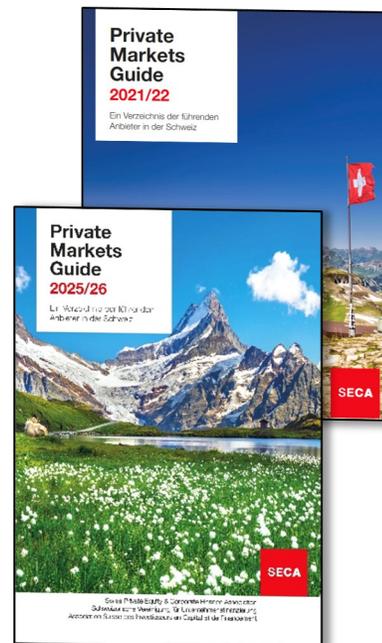

**Yearbook**  
est. 2001

The SECA Yearbook is an annual report that includes the president's report, updates on SECA's developments and events, and a list of its members, who are key players in Switzerland's private equity and venture capital sectors.

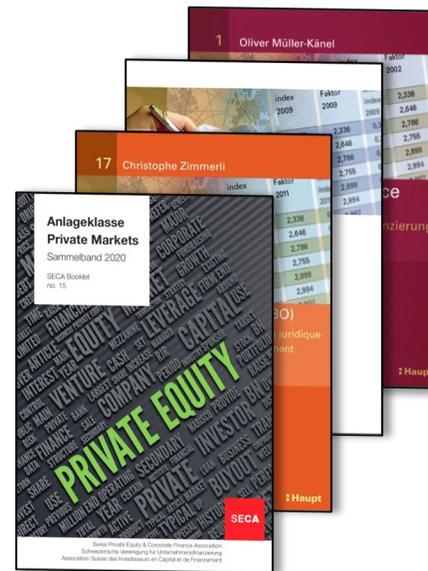

**Private Markets Guide**  
est. 2021/22

The "Private Markets Guide" provides a comprehensive overview of private market providers and their investment vehicles for institutional and private investors, with plans for regular updates. It includes introductory insights into the private markets asset class and detailed company-specific reports on investment vehicles.

**SECA Booklets & Series**  
est. 2010 & 2006

The SECA Booklets provide clear, accessible overviews of alternative and private asset classes for both new and experienced investors. The SECA Book Series also offers in-depth theory on advanced financial topics, specializing in areas such as private equity and venture capital, for those seeking a more in-depth understanding.

**VC Report**  
est. 2012

The Swiss Venture Capital Report is an annual publication offering insights into Swiss start-up investments, including financing rounds, investments, and notable exits, with a mid-year update in July. It also provides ongoing updates on financing news throughout the year.

## SECA Evening Event Swiss VCs on Stage

This SECA event will showcase Swiss managers and discuss opportunities, challenges and look to the future.

Success stories such as company sales and IPOs act as catalysts. Europe is becoming increasingly attractive as a venture capital location and is catching up with the USA rapidly. The positive momentum is also spilling over into Switzerland. Numerous new funds with experienced and "new" managers are start-ing up.

Characteristic of these new funds is that, in addition to a focus on specific company development phases or sectors, they are promoted by teams with distinctive and long-standing entrepreneurial, industrial, scientific, and financial expertise. The track record as a team together or as a "new" team in composition, along with the performance of the predecessor fund, is considered the predominant "quality criteria" of the investor in deciding to invest in one or the other fund.

According to the latest survey published in conjunction with the Swiss Venture Capital Report early 2025, up to 50 "Swiss" vehicles currently raising funds. More than half of these achieved already their first closing. This is good news for investors, who can increasingly choose from a wider range of investment opportunities.
